

Test Scenario ID	Module	Test Scenario Title	Description	Testing Type	Priority
TS01	Login & Authentication	Verify successful login	Ensure a registered user can log in with valid credentials	Functional Testing	High
TS02	Login & Authentication	Verify login with invalid credentials	Ensure incorrect email/password results in an error message	Functional Testing	High
TS03	Login & Authentication	Verify "Forgot Password" functionality	Ensure users can reset passwords via email link	Functional Testing	Medium
TS04	Dashboard Navigation	Verify landing page after login	Ensure users land on the correct dashboard after login	UI/UX Testing	High
TS05	Dashboard Navigation	Verify navigation links	Ensure all navigation buttons function correctly	Functional Testing	High
TS06	Content Editor	Verify document creation	Ensure users can create new documents successfully	Functional Testing	High
TS07	Content Editor	Verify text formatting	Ensure users can apply bold, italic, and underline styles	Functional/UI Testing	Medium
TS08	Content Editor	Verify auto-save functionality	Ensure content is saved automatically at intervals	Functional Testing	High
TS09	Content Editor	Verify content editing	Ensure users can edit and delete content successfully	Functional Testing	High
TS10	User Profile Management	Verify profile update	Ensure users can update personal details successfully	Functional Testing	Medium
TS11	User Profile Management	Verify password change	Ensure users can update their password securely	Functional Testing	High
TS12	Collaboration & Sharing	Verify document sharing	Ensure users can share documents with specific permissions	Functional Testing	High
TS13	Collaboration & Sharing	Verify real-time editing	Ensure updates reflect in real-time for shared users	Functional Testing	High
TS14	Notifications	Verify document sharing notifications	Ensure users receive notifications when a document is shared	Functional Testing	Medium
TS15	Notifications	Verify edit notifications	Ensure users are notified when changes are made to shared documents	Functional Testing	Medium
TS16	Performance & Security	Verify multi-user editing capability	Ensure the system handles multiple users editing the same document	Performance Testing	High
TS17	Performance & Security	Verify unauthorized access prevention	Ensure unauthorized users cannot access restricted documents	Security Testing	High
TS18	Cross-Browser Compatibility	Verify support across multiple browsers	Ensure the application works on Chrome, Firefox, Safari, and Edge	Compatibility Testing	High
TS19	Cross-Device Compatibility	Verify responsiveness on mobile and tablet	Ensure the application works correctly on mobile and tablet screens	UI/UX Testing	Medium
